INDEX TO VOLUME LIV

Actinomycosis graminis 165
Adrenal, Studies on the, IV. The oral administration of the adrenal cortical hormone and the use of fresh glands therapeutically 216

Bernstein, Clarence, Herbert Rothschild and Jonas S. Friedenwald, The relation of allergy to immunity in tuberculosis 232
Biggart, J. H., The hypophysis of the human castrate 157
Biggart, J. H., Actinomycosis graminis 165
Billings, Edward G., The occurrence of cylic variations in motor activity in relation to the menstrual cycle in the human female 440
Block, Sino-auricular, with ventricular escape 225
Book Reviews 75, 140, 381, 455

Carbohydrate metabolism, The control of 79
Chesney, Alan M., and Thomas B. Turner, Experimental yaws. II. Comparison of the infection with experimental syphilis 174
Cochlear branch of the auditory nerve, Effect of hemisection of the, Preliminary report 208
Cod liver oil, On the alleged toxicity of 430
Cox, Warren M., and Allan J. Roos, On the alleged toxicity of cod liver oil 430
Crowe, Samuel J., Stacy R. Guild and Leroy M. Polvogt, Observations on the pathology of high-tone deafness 315

Dandy, Walter E., The effect of hemisection of the cochlear branch of the human auditory nerve. Preliminary report 208
Deafness, high-tone, Observations on the pathology of 315
Dippel, A. L., Death of foetus *in utero* 24

Exophthalmos, Experimental, and hyperthyroidism in guinea-pigs. Clinical course and pathology 48

Firor, W. M., and Arthur Grollman, Studies on the adrenal. IV. The oral administration of the adrenal cortical hormone and the use of fresh glands therapeutically 216
Foetus, Death of, *in utero* 24
Friedenwald, Jonas S., Herbert Rothschild and Clarence Bernstein, The relation of allergy to immunity in tuberculosis 232
Friedgood, Harry B., Experimental exophthalmos and hyperthyroidism in guinea-pigs. Clinical course and pathology 48

Garner, R. L., and William S. Tillett, The agglutination of hemolytic streptococci by plasma and fibrinogen. A comparison of the phenomenon to serological reactions with the same organisms 145

Grollman, Arthur, and W. M. Firor, Studies on the adrenal. IV. The oral administration of the adrenal cortical hormone and the use of fresh glands therapeutically 216
Guild, Stacy R., Samuel J. Crowe and Leroy M. Polvogt, Observations on the pathology of high-tone deafness 315

Hypophysis of the human castrate 157

Immune state, A study of the character and degree of protection afforded by the, independently of the leucocytes 277

Lectures and programs 1933–1934 458
Light, F. W., Jr., Sino-auricular block with ventricular escape 225

Macleod, John James Rickard, The control of carbohydrate metabolism 79
McKee, Clara M., and Arnold R. Rich, A study of the character and degree of protection afforded by the immune state independently of the leucocytes 277
Menstrual cycle in the human female, The occurrence of cyclic variations in motor activity in relation to the 440

Pancreas, Surgical affections of the, encountered in the Johns Hopkins Hospital from 1889 to 1932, including a report of a case of an adenoma of the Islands of Langerhans, and a case of pancreatolithiasis 386
Peckham, C. H., An investigation of some effects of pregnancy noted six weeks and one year after delivery 186
Polvogt, M., Samuel J. Crowe and Stacy R. Guild, Observations on the pathology of high-tone deafness 315
Pregnancy, Prolongation of, and complications of parturition in the rabbit following induction of ovulation near term 1
Pregnancy, Some effects of pregnancy noted six weeks and one year after delivery .. 186

Rich, Arnold R., and Clara M. McKee, A study of the character and degree of protection afforded by the immune state independently of the leucocytes 277
Rienhoff, William Francis, Jr., Surgical affections of the pancreas encountered in the Johns Hopkins Hospital from 1889 to 1932, including a report of a case of an adenoma of the Islands of Langerhans, and a case of pancreatolithiasis 386
Roos, Allan J., and Warren M. Cox, On the alleged toxicity of cod liver oil 430
Rothschild, Herbert, Jonas S. Friedenwald and Clarence Bernstein, The relation of allergy to immunity in tuberculosis 232

Snyder, Franklin F., Prolongation of pregnancy and complications of parturition in the rabbit following induction of ovulation near term 1
Streptococci, hemolytic, Agglutination of, by plasma and fibrinogen. A comparison of the phenomenon to serological reactions with the same organisms 145

Thayer, Dr. William Sydney 211
Thomas, Henry M., Jr., Dr. Thayer. Memorial notice 211

Tillett, William S., and R. L. Garner, Agglutination of hemolytic streptococci by plasma and fibrinogen. A comparison of the phenomenon to serological reactions with the same organisms 145
Tuberculosis, The relation of allergy to immunity in 232
Turner, Thomas B., and Allan M. Chesney, Experimental yaws. II. Comparison of the infection with experimental syphilis 174

Yaws, Experimental, II 174
